

Mayur Rajendra Rathod

Tathawade, Pune
rathodmayur11109@gmail.com — LinkedIn

Profile

Detail-oriented Computer Science undergraduate with hands-on exposure to Java programming and data-focused application development. Demonstrates a structured approach to problem-solving, backend logic implementation, and working with relational data systems. Seeking an entry-level opportunity to contribute to scalable, data-driven software solutions in a professional environment.

Education

Bachelor of Technology – Computer Science and Business System

Engineering Institution, Pune

Expected Graduation: 2027

Skill Set

Java, Object-Oriented Programming, Data Structures, SQL, Relational Databases, REST API Basics, Spring Boot (Introductory), Git Version Control, Linux Basics, Data Handling, Debugging, Logical Reasoning

Project Experience

Record Management System – Java

- Implemented a Java-based application to manage structured records using OOP concepts.
- Applied validation rules and modular design for maintainability.

Database-Driven Application – SQL

- Designed normalized database schemas and executed complex queries.
- Focused on data consistency, accuracy, and efficient retrieval.

Backend Service Prototype – Spring Boot

- Developed basic REST endpoints following layered architecture principles.
- Gained exposure to request handling, exception management, and API testing.

Practical Exposure

- Academic labs and self-initiated practice projects focused on backend logic.
- Experience collaborating in small teams and following structured workflows.

Professional Strengths

Analytical Thinking, Attention to Detail, Process Discipline, Adaptability, Clear Communication, Continuous Improvement Mindset

Career Objective

To launch my career in a data-centric technology organization where I can apply core computer science principles, contribute to backend development initiatives, and grow into a high-impact software professional.
